

## Horsing around Porsche Spring Meeting 2018

### **EVENTS**

MAY 1, 2018 *GaliffiBrothers*

Only one day after the Tour Auto, we were back to the [Circuit Paul Ricard](#). The track welcomed Porsche Spring Meeting thanks to the Porsche [Clubs France](#). Hundred of rides from 1958 to 2018 were gathered around the famous track to spend a day under the Stuttgart's prancing horse. Numerous modern cars owners wished to hit the road, some vintage owner just wanted to share their passion and a few racing cars owners to looked for fighting on the circuit.

It was a fantastic day where for once 356, 911, 930 Turbo, 964 RSR, 991 Turbo, 991 GT3, 991 GT3 RS, 991 GT2, Panamera and Cayenne had the opportunity to meet. Thanks to Nadège from the [Porsche Club Atlantique](#), we also got the chance to ride on the track! Aboard a fabulous Porsche 914 flat-6 engine, the little Porsche was amazing around the circuit. Nimble, compact and lightweight, it is a very good first impression. Because, to tell you the true we did not know that much about it.

A great tribute for the 70th anniversary and a celebration of Porsche's cars production variety!

And keep it [#FuntoDrive](#).
